A LETTER FROM THE CHAIR

What will 2021 bring? That has to be a question on everyone's mind as we usher in a new year with considerable trepidation. Living through these past nine months has been difficult and demanding on all of us. Not just the major events—the sudden arrival of a pandemic and subsequent lockdown, the summer riots demanding racial justice, the craziness of our presidential elections—but surviving day to day living in the midst of all this has been extremely challenging. Will 2021 hold better things in store? We certainly hope so.

Despite the multiple challenges wrought by the COVID-19 pandemic our philosophy department has continued to flourish in many directions. While teaching continues to be online, we at least had the summer to catch our breath and develop online courses for autumn quarter across the various new "modalities." A number of faculty and graduate teaching fellows used the opportunity to acquire DOTS training, qualifying them to offer fully asynchronous courses, and our department is now able to offer a range of courses across all three modalities. Autumn enrollment in courses was robust, actually showing a slight increase in LAS compared to a year earlier, although there is some doubt as to whether this can be sustained through the remainder of the academic year.

Many of our regular events continued online, including Philosophy Circle meetings throughout autumn quarter. At the end of October, we hosted our first visiting speaker event of the year—in fact, our first "virtual visiting speaker" ever—when Miguel DeBeistegui gave a riveting presentation to over 60 attendees, responding to Kevin Thompson and Vilde Aavitsland, who offered comments and questions on Miguel's recent book, *The Government of Desire*. In November, we held our annual DUOS presentation awards luncheon online. While the food was not quite so good this year, both the Dean of our college and the Associate Provost for Research said how impressed they were by the high quality of the projects that our students presented.

Meanwhile, research by our faculty and graduate students has continued unabated, with several books published recently, as well as journal articles and online conference presentations. Special congratulations to Zhen Liang, who successfully defended her dissertation in October! Details on these and other events inside.

The year 2020 has been wearing on all of us, and we know that the coming winter months may be the most difficult yet. In the face of a situation that remains very challenging on multiple levels, I want to thank each of you sincerely for everything that you do to raise the spirits of our students and keep them engaged in philosophical learning. We hope for better times ahead.

DUOS (Doctoral & Undergraduate Opportunities for Scholarship)

On Friday, November 13th, 2020, the Department of Philosophy held an event to welcome our 2020-21 DUOS awardees. DUOS (Doctoral and Undergraduate Opportunities for Scholarship) is a competitive initiative that pairs graduate students with undergraduate students to work jointly on research projects under the guidance of faculty advisors. Both students receive stipends.

This year marked the first time that the Department of Philosophy has awarded a number of DUOS projects the Minorities and Philosophy (MAP) designation, signifying their role in overcoming the historic marginalization of certain groups in academic Philosophy (for more information on MAP see www.mapforthe-gap.com).

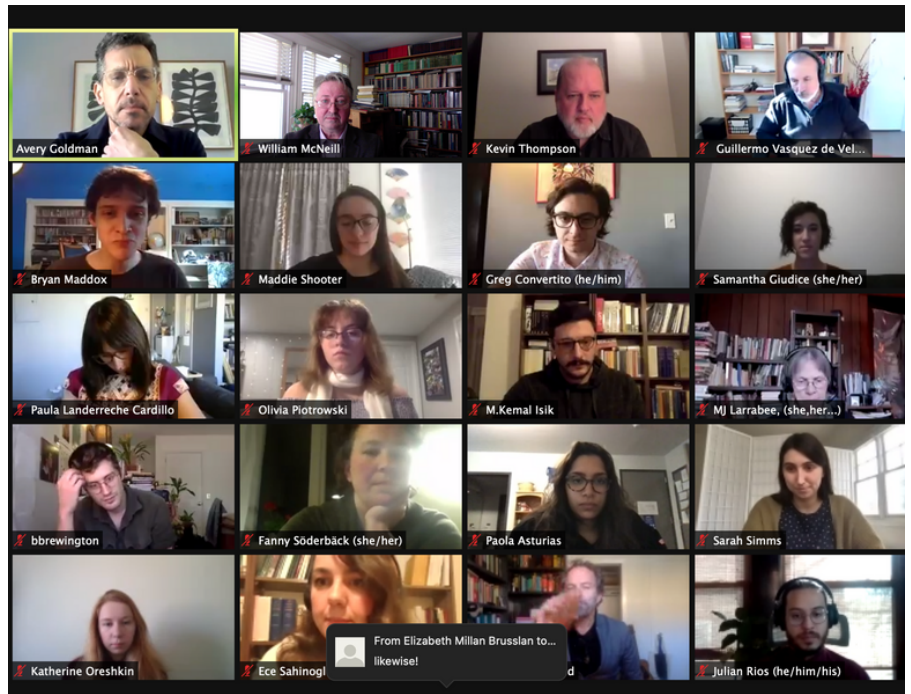

We were happy to have in attendance both the Dean of the College of Liberal Arts and Social Sciences, Guillermo Vásquez de Velasco, Ph.D., and DePaul's Associate Provost for Research, Daniela Stan Raicu, Ph.D. The Department of Philosophy would like to thank both the College of LAS and an anonymous donation that created "The Maimonides Endowment in Philosophy" for the generous support of the DUOS program.

Congratulations to all of the awardees and we look forward to hearing about your research at the end of year event on Friday, May 28th!
