

Alex Asta

Hometown Chicago, Illinois

Recent positions include:

DePaul Student

About

I recently re-enrolled at DePaul to finish the graduate GIS certificate, after finishing my SUD degree in 2020. I plan to finish the certificate and enter the urban planning field somewhere in Chicago or another large city.

Notable memory

I initially became familiar with the Chaddick Institute when I was the receptionist for the School of Public Service and I got to sit in on many of their events. My experience as a Chaddick scholar introduced me to a network of transportation and urban planning professionals that I didn't have before and taught me about urban planning issues I didn't have much familiarity with.
