

Jane Kirsling

Hometown

Searsmont, Maine

Recent positions include:

Contract/Grant Specialist, State of Maine Department of Education

About

After graduation from DePaul I worked in Medical Research for 7 years at Northwestern and the Shirley Ability Lab. I received an opportunity to work in Maine and quickly jumped on it, excited to get back to my rural roots. I currently work with the State of

Maine in the Department of Education. I am also working on my first book and plan to publish it later in 2022.

Notable memory

My favorite memory with Joe and the Chaddick Institute was the trip to Gary, IN we took. It made me see Gary in an entirely different light and it was such a wonderful opportunity to bond with my fellow classmates. I would never pass up the opportunity to hear Joe talk about train tracks!
