

Valeria Tarka

Hometown

South Elgin, Illinois

Recent positions include:

Planner, Village of Oswego

About

I started working at the Village of Oswego as a Planner in March of 2022. I am excited to graduate with my Master's in Arts in Sustainable Urban Development in June and be able to focus on my career in planning.

Notable memory

My favorite memory from Chaddick was the virtual study trip where my fellow scholars took us (via Google Earth) to a meaningful and significant place that impacted their lives. I was able to learn a lot about my classmates, such as where they are from, where they went to undergrad, where they have traveled, etc. while also learning about areas I have never been to.
