

## John A. Desmond

### Hometown

Chicago, Illinois

### Recent Positions Include

New Case Investigator: Cooney & Conway, Research Lead and Coordinator, Progressive Victory

### About

I'm a recent graduate from the Public Policy Program. However, experiences at Chaddick convinced me to put in the extra work to graduate with certificates in Metropolitan Planning and Development as well as Geographic Information Systems (GIS). My major topics of research have been on transportation access and equity. As an avid biker, I'm committed to urban planning and transportation initiatives that enhance urban mobility and ensure that the streets are friendly and open to everybody.

### Notable Memory

Through Chaddick, I was able to participate in research and present at the Transportation Research Forum. The connections and friendships I gained through Chaddick have made my graduate education a joy, and I'm certain it would have been so much less impactful it would have been without Chaddick.
