About

After starting the Master of Public Administration program, I joined the Chaddick Institute in the Fall of 2024. My journey has been very educational and interesting. I have taken various trips and engaged with numerous advocacy leaders, policymakers, and local mayors. I have truly enjoyed my time in the Chaddick community, and I am grateful for all the opportunities that have been presented to me to engage and become a better leader.

Notable Memory

One of the fondest memories I've had from this program would be traveling via Amtrak to the Capitol in Springfield, IL, for "Advocacy Day". I met with legislators to discuss the High-Speed Rail Alliance's Transportation Initiatives; I felt that this opportunity allowed me to really understand the importance of lobbying and policy making.
