WHO'S INVITED

**ALL LAS FACULTY & LIMITED NUMBER OF
GRAD STUDENTS, ESPECIALLY GAS & RAS**

Curious to learn how NVivo works? Find out if this popular software for qualitative data management and analysis is the right tool for you. Join us online as a certified NVivo instructor with more than 20 years' experience working with the program and qualitative research in general takes you through the paces.

Whether brand new to NVivo or already a user, this is your chance to get direction from a professional and to ask questions. Two weeks later, on **February 24**, we will return with a follow-up workshop to offer participants further and more customized individual attention.

Space is limited, so contact us soon to reserve a spot. We're also saving some seats for grad students, so please share this message with your Graduate and Research Assistants.
