Requesting an Independent Study

The LAS Independent Study application is used by students, faculty, and chairs. Students use this application to enroll in an LAS independent study. Students should consult with the instructor that they plan to study with before submitting an application. This ensures that the student has all the information they need to submit the request and that the instructor has the time to work with them. Once the request is submitted, a notification email is sent to the instructor and the chair of the department, who will then login to this application to review and approve/deny the request.

Students should follow these steps to submit an independent study request:
